WAR DEPARTMENT,  
OFFICE OF THE CHIEF OF STAFF,  
Washington, August 22, 1916.

1. *Classification of property.*—Hereafter Government property in the hands of troops will be divided into classes as follows:

Equipment "A" is the equipment prescribed for use in campaign, in simulated campaign, or on the march. It is limited to the animals and vehicles prescribed in the Tables of Organization, the equipment and clothing worn on the person, and the articles carried on mount, and transported in field, combat, and divisional trains.

Equipment "B" is the equipment which, in addition to equipment "A," is prescribed for the use of troops in mobilization, concentration, instruction, or maneuver camps, and during such pauses in operations against an enemy as permit the better care of troops.

Equipment "C" is the sum of equipments "A" and "B."

Garrison equipment is the equipment prescribed for use in garrison.

2. *Unit accountability equipment and accountability therefor.*—The unit accountability equipments of the various organizations will consist of the articles of "A" and "B" equipment prescribed in the unit accountability manuals for the strength authorized and will be accounted for by organization commanders on unit accountability returns (Form No. 451, A. G. O.) in accordance with War Department orders.

3. *Accountability and responsibility for other Government property.*—All garrison equipment and other Government property in the hands of organization commanders, except that held under unit accountability, will be held on memorandum receipts from the various post, regimental, or other designated supply officers, who will render to the chiefs of the staff departments concerned returns as at present for all property for which they are accountable.

4. In this revised manual the unit accountability equipment for the present authorized minimum and maximum strengths is given in Part I. In Part II are given the sets of individual arms and equipment of unit accountability equipment by which any increase or decrease in equipment corresponding to any authorized increase or decrease in strength may be readily determined and expressed.

5. Upon receipt of this manual organization commanders will immediately adjust their (unit) accountability by turning in to the proper supply officer all surplus articles on hand and supplying the deficiencies by requisition, so that the articles on hand of unit accountability equipment of their respective organizations will conform to the number authorized in this manual with the least practicable delay. All such adjustments will be covered by exchange of regular invoices and receipts.

6. In Part III of this revised manual is listed the garrison equipment for the present authorized minimum and maximum strengths.

By order of the Secretary of War.

H. L. SCOTT,  
Major General, Chief of Staff.

<sup>1</sup> Note.--The quantities of supplies indicated are the minimum quantities which should be kept on hand when in garrison and are the quantities which should at all times be ready to be taken into the field with the organization.

Each organization will be allowed annually, for drill or instruction purposes, supplies to twice the money value of the allowance of supplies given in this manual. Supplies issued in replacement of those expended for these purposes will be charged against this money allowance, thus permitting greater flexibility in the expenditure of supplies for drill or instruction purposes.

Supplies are listed in this manual as a matter of convenience. Supplies are *not* included in the unit accountability.

## ORDNANCE STORES FOR USE OF OFFICERS UNDER PARAGRAPHS 1520 AND 1522, A. R., 1913.

## ORDNANCE PROPERTY.

(o) For officers entitled to horse equipment (paragraph 1520, A. R., 1913).<sup>1</sup>

1 bridle, cavalry.	1 link.
1 bridle, watering (issued only with the curb bridle, model of 1902).	1 picket pin.
1 currycomb.	1 saber straps, pair.
1 feed bag.	1 saddle, McClellan, cavalry.
1 grain bag.	1 saddlebags, pair.
1 halter headstall.	1 saddle blanket.
1 halter tie rope.	2 saddlecloths, with insignia, officers'.
1 horse brush.	1 spurs, pair.
1 lariat.	1 spur straps, set.
1 lariat strap.	1 spur straps, black, set.
	1 sureingle.

(p) Pistol equipment for use of officers under A. R. 1522.<sup>2</sup>

21 cartridges, ball, pistol.	1 pistol holster.
2 magazines, pistol, extra.	1 pistol belt, with saber ring.
1 pistol.	

NOTE.—The above equipments are for use with the .45-caliber pistol. In case organizations are equipped with .38 or .45 caliber revolvers substitute for the articles of pistol equipment the corresponding articles of revolver equipment as follows:

(q) Revolver equipment for use of officers under A. R. 1522.<sup>2</sup>

20 cartridges, ball, revolver.	1 revolver holster.
1 revolver.	1 revolver cartridge belt.

NOTE.—The sets of officers' horse equipments, pistol or revolver equipment on hand and also all individual equipment units retained on hand for additional men will, in each case, be briefly reported (in the space provided for the purpose) on page 2 of the return—Form No. 451 A. G. O.—as so many sets, followed by the letter (a), (b), (c), etc., given in this manual to designate the unit, after the following manner:

7 sets (a).	3 sets (p).
7 sets (c).	3 sets (q).
3 sets (o).	

Each set of horse or pistol equipment provided for use of officers, and each set of individual equipment obtained on account of additional men, should be complete and consist of only the articles enumerated in this manual as the unit for the set indicated by the letter.

If at any time the number of rifles, gun slings, and cartridge belts on hand pertaining to the regular unit accountability equipment of the organization is not sufficient to meet the provisions of paragraph 1522, A. R., 1913, then such stores will be drawn by the individual officers requiring the use of them from the post ordnance officer, or from the designated ordnance supply officer, under memorandum receipt.

The small arms ammunition drawn by officers under A. R. 1522 of 1913 for expenditure in authorized target practice will be taken from the ammunition which is held by the organization commander under memorandum receipt from the supply officer, as authorized by paragraph 6, General Orders, No. 52, War Department, 1915.

<sup>1</sup> Articles held on unit accountability under the provisions of paragraph 1520 A. R., 1913, will be limited to those shown under (o). Horse covers where required and the additional equipment authorized by orders where an officer below the grade of major has provided himself with two mounts will be obtained on memorandum receipt from the post ordnance officer, or supply officer.

<sup>2</sup> Organization commanders may keep on hand a sufficient number of these articles to meet the provisions of paragraph 1522 A. R., 1913. Articles held under the provisions of this paragraph will be limited to those shown under (p) or (q).
